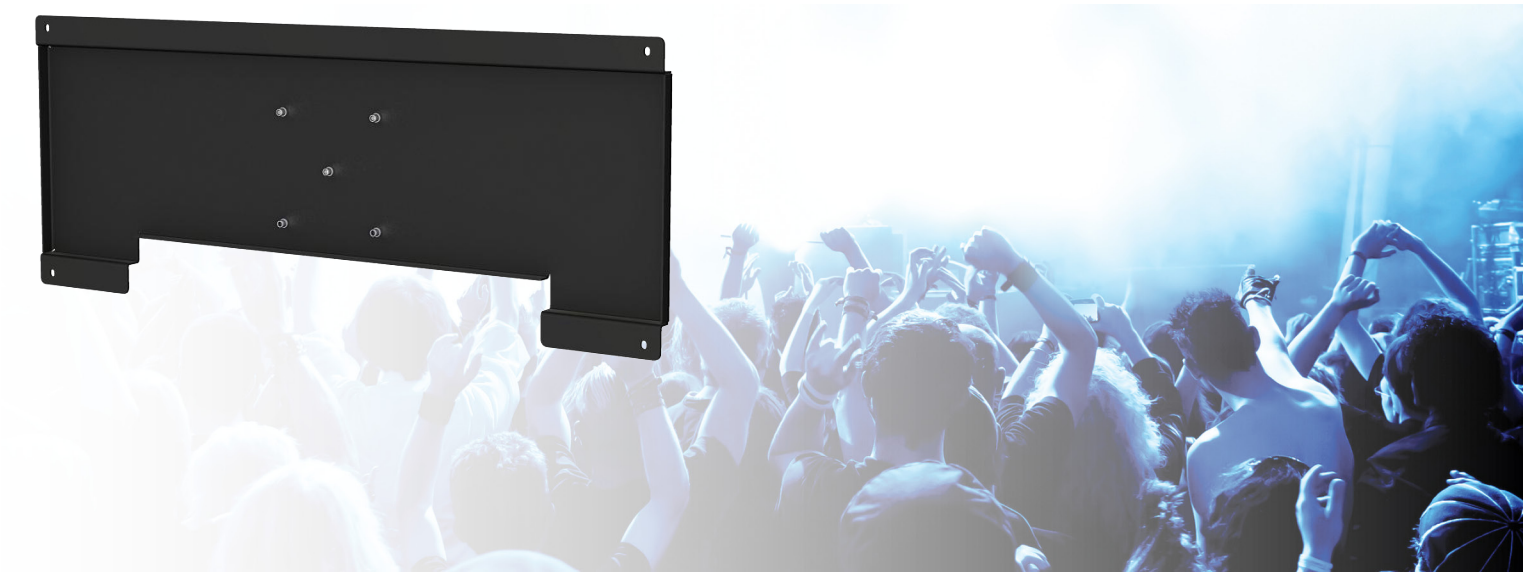
PRODUCT LEAFLET

Rental bracket 1075 - 400 mm



012.2101 Panasonic PF9UK rental bracket (excl. rotation function)

The bracket allows the screen, using the SmartMetals hoist system, to be manually hoisted out of a TechnoCaseflightcase. Furthermore a rotation module with index plunger can be added to rotate the screen from portrait to landscape, and afterwards fastened in this position. This custom made bracket can possibly be fitted to other Panasonic screens with mounting pattern 1075 x 400 mm (please do contact us for more information).
